

**SECTION B: Amendments to the Claims**

This listing of claims will replace all prior versions, and listings, of claims in the application:

**Listing of Claims**

1.     **(Currently Amended)** ~~A bathtub~~ bathing unit apparatus, comprising:  
a reservoir;  
a threshold having an outer edge and an inner edge; and  
a slope included in the threshold and configured to direct water away from the outer edge toward the inner edge.
2.     (Original) The apparatus of Claim 1, wherein the slope comprises a run-off surface facing upwardly and inwardly.
3.     (Original) The apparatus of Claim 2, wherein the run-off surface is substantially flat.
4.     (Original) The apparatus of Claim 1, wherein the threshold comprises a substantially horizontal surface between the slope and the inner edge.
5.     (Original) The apparatus of Claim 4, wherein the slope comprises an outer portion with a height between .25 inch to 1 inch from the substantially horizontal surface.

6. (Original) The apparatus of Claim 5, wherein the slope comprises a transverse span between 0.5 inch to 3 inches.

7. (Original) The apparatus of Claim 4, wherein the slope comprises an angle between 5 to 85 degrees with respect to the substantially horizontal surface.

8. **(Currently Amended)** A ~~shower base assembly~~bathing unit assembly for use in connection with a shower enclosure, comprising:

a bottom floor;

an inner side portion adapted to be disposed adjacent an inner wall of the shower enclosure;

a front side portion adapted to be disposed adjacent to a front wall of the shower enclosure;

a rear side portion adapted to be disposed adjacent to a rear wall of the shower enclosure; and

a threshold portion including an outer edge, an inner edge and a slope configured to direct water from the outer edge toward the inner edge.

9. (Original) The assembly of Claim 8, wherein the slope comprises a run-off surface facing upwardly and inwardly.

10. (Original) The assembly of Claim 9, wherein the run-off surface is substantially flat.

11. (Original) The assembly of Claim 8, wherein the threshold comprises a substantially horizontal surface between the slope and the inner edge.

12. (Original) The assembly of Claim 11, wherein the slope comprises an outer portion with a height between .25 inch to 1 inch from the substantially horizontal surface.

13. (Original) The assembly of Claim 12, wherein the slope comprises a transverse span between 0.5 inch to 3 inches.

14. (Original) The apparatus of Claim 11, wherein the slope comprises an angle between 5 to 85 degrees with respect to the substantially horizontal surface.

15. **(Withdrawn)** A slope for use in connection with an existing ~~bathtub~~  
~~threshold or shower base~~ bathing unit threshold, comprising:

a length;  
an outer portion disposed substantially along the length and having a first height;  
an inner portion disposed substantially along the length and having a second height that is less than the first height; and  
a slope descending from the outer portion to the inner portion.

16. (Original) A method for preventing leakage from a bathing unit area, comprising:

providing a threshold disposed adjacent to an outer side of the area;  
providing the threshold with a slope that declines as it extends inwardly;

receiving water with the threshold; and

directing the water away from an exterior of the area and toward an interior of the area with the slope.

17. **(New)** The apparatus of claim 1, wherein the bathing unit comprises a bath tub.

18. **(New)** The assembly of claim 8, wherein the bathing unit comprises a shower base assembly.

Application No. 10/637,103  
Art Unit 3751  
Reply to Office Action of September 17, 2004

**SECTION C: Response to Restriction Requirement**

In response to the Office Action mailed September 17, 2004, Applicant hereby elects without traverse to prosecute Group I, containing Claims 1-14 and 16, drawn to a bathing unit, classified in class 4, subclass 584/612. Claim 15 has been withdrawn.

In accordance with 35 U.S.C. 121, Applicant further elects Species I, Figures 1 and 2 for prosecution on the merits, with the understanding that upon the allowance of a generic claim, Applicant will be entitled to consideration of claims to additional species. Claims 1-14 and 16-19 are readable upon the elected species.

Applicant reserves the right to prosecute the non-elected claims in one or more divisional applications. Please feel free to contact the undersigned if you have any questions or comments.

**Certificate of Mailing**

I hereby certify that this correspondence is being deposited with the United States Postal Service as first class mail in an envelope addressed to: Commissioner for Patents, P.O. Box 1450, Alexandria, Virginia 22313-1450 on October 18, 2004.
